

## **REMARKS**

The present Amendment is submitted after receipt of the Notice of Allowance and is in accordance with the provisions of 37 C.F.R. 1.312. It is submitted that entry of this amendment clearly is warranted under the present circumstances for the following reasons.

An examiner initiated telephonic interview was conducted on November 20, 2009 in which the Examiner proposed modifications to claims 1, 12 and 19 in order to place the application in condition for allowance. On November 24, 2009, Applicants' representative contacted the Examiner via telephone in order to inform the Examiner that Applicants have agreed to the proposed claim changes.

In this regard, however, upon review of the Examiner's Amendment included with the Notice of Allowability dated December 7, 2009, Applicants identified minor errors in the changes that were made to claims 1 and 12.

In particular, with respect to the phrase "wherein first data table packet contains parental control information" that was added to claims 1 and 12 by the Examiner's Amendment, Applicants note that this phrase should have read as follows: --wherein the first data table packets contain parental control information--.

Regarding the above-noted phrase added to claims 1 and 12, Applicants note that a telephonic interview was conducted between the Examiner and Applicants' representative on February 3, 2010, during which the Examiner agreed that the phrase added to claims 1 and 12 should have been "wherein the first data table packets contain parental control information". As such, the Examiner agreed that Applicants could file an Amendment under 37 CFR 1.312 so as to modify claims 1 and 12 in the above-described manner.

Accordingly, by the present amendment, Applicants note that claims 1 and 12 have been amended by replacing the phrase “wherein first data table packet contains parental control information” with the phrase --wherein the first data table packets contain parental control information--, as agreed upon during the above-noted telephone interview.

In view of the comments above, Applicants kindly request entry and consideration of the amendments presented herein.

If for any reason the Examiner does not believe that this amendment should be entered, Applicants kindly request that the Examiner contact the undersigned at the telephone number listed below.

Respectfully submitted,

Kojiro KAWASAKI et al.
